Funding awarded for the Pine Hollow Plant Lab!!

The Bender Scientific Fund of the Community Foundation for the Greater Capital Region has awarded PHA with a grant to enhance our visitors' educational

experience by providing an indoor learning space to explore scientific concepts related to trees, climate change, invasive species, woodland ecosystems and more!!

The PH Plant Lab will provide interpretive signage for daily visitors and materials for organized lab activities that reinforce the scientific method while fostering an appreciation for trees and the natural world.

Thank you to the Bender Scientific Fund of the Community Foundation for the Greater Capital Region!!!
